Application Number: 09/920,137

Art Unit: 1647

Claim Listing

1. (currently amended) An isolated human anti-TNF antibody, comprising at least one variable region, wherein the variable region of the heavy chain comprises ing SEQ ID NO:7 and the variable region of the light chain comprises SEQ ID NO:8 corresponding to the heavy chain and light chain variable regions respectively.

- 2. (original) A TNF antibody according to claim 1, wherein said antibody binds TNF with an affinity of at least one selected from at least 10^{-9} M, at least 10^{-10} M, at least 10^{-11} M, or at least 10^{-12} M.
- 3. (previously amended) A TNF antibody according to claim 1, wherein said antibody.

Claims 4-8 (canceled).

9. (currently amended) A composition comprising an isolated human anti-TNF antibody, comprising at least one variable region, wherein the having at least one variable region of the heavy chain comprises emprising SEQ ID NO:7 and the variable region of the light chain comprises SEQ ID NO:8, and at least one pharmaceutically acceptable carrier or diluent.

Claims 10-15 (canceled).

16. (currently amended) A medical device, comprising an isolated human anti-TNF antibody, comprising having at least one variable region, wherein the variable region of the heavy chain comprises comprising SEQ ID NO:7 and the variable region of the light chain comprises SEQ ID NO:8-corresponding to the heavy chain and light chain variable regions respectively, wherein said device is suitable to contacting or administerting said anti-TNF antibody by at least one mode selected from parenteral, subcutaneous, intramuscular, or intravenous.

Claims 17-101 (canceled).
